A SENSATIONAL GAME

Four Home Runs Marked Last Big
Game—Boston In Fine
Fight.

(Associated Press)
Philadelphia, Oct. 13.—Notwith-
standing that Boston has won three
of the four games played, and that a
victory for the American leaguers to-
day would give them the world's
championship, the demand for tickets
for today's game between the Boston
and Philadelphia teams in this city
equalled, if it did not surpass, that of
the opening game. Ideal baseball
weather prevailed.

Trains Delayed.
The special train from Boston car-
rying the teams, the tickets for the
bleachers, the ticket sellers, the keys to

COUZENS QUILTS FORD; PEACE TALK IS CAUSE

Financial Manager Resigns from
Big Auto Concern.

Detroit, Oct. 13.—James Couzens,
vice president, treasurer and general
manager of the Ford Motorcar com-
pany, has resigned. Inability to be-
come reconciled with Henry Ford's
attitude and utterances toward the
war led to Mr. Couzens' action. Mr.
Ford is a strong peace advocate. Mr.
Couzens has been associated with Mr.
Ford since the company was first or-
ganized, and has been the financial
manager of the concern.

"His public utterances," that was
the reason assigned by Mr. Couzens
for breaking a relationship with Mr.
Ford, extending over thirteen years,
from the time Ford was working in
a small machine shop. "This has been
brewing for more than a week," said
Mr. Couzens. "For some time I have
disapproved of the things Mr. Ford
has said about unpreparedness and
other things of world interest. His
stand on these matters has disgusted
me."

Mr. Couzens retains his financial in-
terests in the Ford Motor company.

YOUNG CAR ROBBERS ARE RELEASED TODAY

JOHN GOODWIN AND ROSS WAL-
RAVEN GIVEN THEIR
FREEDOM.

John Goodwin and Ross Walraven,
Peoria lads who have been in the Lec
county jail for several weeks, were re-
leased today and started for home.

The boys left home in July and
bummed their way to Nelson on the
Northwestern, where they broke into
some cars and stole some merchandise.
They were apprehended and put
into the jail in this city and sentenced
on August 9 to 90 days in jail. Sheriff
Phillips recently received letters from
the boys' parents, they being but 17
years old, asking that if possible they
would like to get the boys home as
their assistance was needed in the
support of the families. The matter
was taken up with States Attorney
Edwards and he granted the request
and this morning they were taken
into county court and Judge Crabtree
reduced the sentence to 65 days in
jail, thus having the time of the sen-
tence expire this morning. The par-
ents had sent transportation to bring
the boys home and they were put on
the train and sent home.

STAR? NO, A WHOLE CONSTELLATION IS WHAT BASEBALL WRITERS CALL TRIS SPEAKER.

TRIS SPEAKER and TWO OF HIS PLAYS in WORLD SERIES GAMES—
Upper, BATTING HOME RUN; Lower, SAFE at SECOND.

"Best of 'em all" was what they called Tris Speaker, center fielder of the Red Sox, before the world's series began, but of course in the culminating contests of the year a man has to show his ability. He isn't allowed to rest on past honors. Tris Speaker had plenty of these to fall back upon for an all-time record, because he's one of baseball's brilliant luminaries, ranking right behind the only Ty Cobb. In some baseballistic astronomies he outshines the Tiger star. The pictures show a portrait of Speaker and two of his plays in former world's series games—in one he is whacking out a home run, in the other he's getting a safe decision in a close play at second.

orders entered in minor matters,
there was nothing doing. The petty
jurors will again report for work to-
morrow morning at which time the

STATE FIRE OFFICER CHECKED CHIMNEYS

FOUND TWO INSTANCES WHERE
PREVIOUS WARNINGS WERE
IGNORED

Deputy fire marshal Robert Har-
per of Rock Falls spent Tuesday in
this city and in company with chief
Thomas Coffey of the fire depart-
ment made a trip over the city check-
ing up the defective chimneys on
buildings that he had reported to
the owners of the property during
his visit to this city in July. In all
but two instances he found that the
repairs had been made, and in these
the proper owners had not been noti-
fied, but the matter was taken up
with them Tuesday and they agreed
to make the repairs. In case of fire
caused by a defective chimney if
the insurance company carrying the
loss discovers that the owner has re-
fused to make the repairs as ordered
by a man from the state fire mar-
shal's office it gives them an oppor-
tunity to refuse payment of the loss
so sustained. It is well for the prop-
erty owner, if he wants to keep his
insurance in force, to comply with the
request made for repairs or altera-
tions.

bia, according to a dispatch from
Paris. Already Bulgarian troops

of armed neutrality. It is reported

consider the existing situation as
purely a Balkan affair, and there-
fore Greece is not bound by her
treaty with Austria to come to the
latter's aid in resisting the Bulgar-
ian attack.

Serbian Resistance Grows

is making progress, Berlin states, al-
though the Serbian resistance is in-
terfering to some extent with the ad-
vance.

tions south of Belgrade have been
repulsed.

on the Save front are being repulsed.

rious inroads on German commerce

hardt, 1300 tons.

Souchez were repulsed, Paris re-
ports.

French Cabinet Troubles

case has resigned because of ill
health and Premier Vivian has taken
over the portfolio of foreign affairs
with the presidency of the council
of ministers. The cabinet is in ses-

tween Great Britain and Bulgaria had

London, Oct. 13.—Two blows at Ser-
bia from different directions marked
the progress of the war in the Bal-
kans. They were:

Bulgarian invasion of Serbia at Gar-
ribogah, near Kniazhevatz.
Capture by the Austro-Germans of
the Serbian Danube River town of
Semendria, with its fortress.

The war office announcement at Ber-
lin said the Austro-German forward
movement over the whole Serbian
front is making good progress.

All Bulgarian attacks on the Ser-
bians have been repulsed thus far, the
Serbian legation announces. It was
said the invasion began Monday night
in the direction of Viasina.

Attack Near Nish.
This is thought to mean Vlasotince,
a Serbian town, twenty-five miles east
of the Serbian railroad running north
and south between Nish and Uskub,
and is about twenty miles west of the
Bulgarian frontier on a latitudinal line
with Sofia.

The Serbian railroad, which is the
objective of the Bulgarian army in
this region, as it serves as the main
road over which Anglo-French troops
landed at Saloniki, Greece, can be
transported into northern Serbia, runs
parallel to the Bulgarian western
frontier at a distance varying from
eighteen to thirty-six miles.

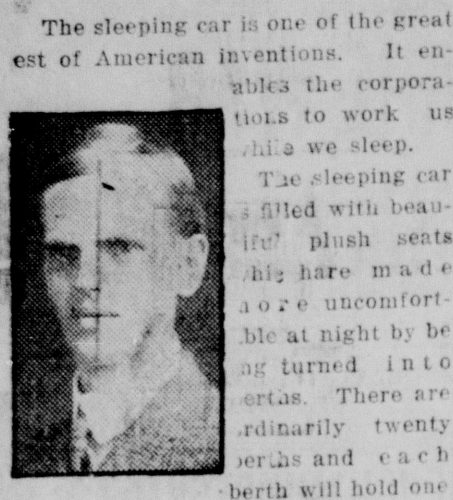

The Bulgarian divisions are engaged
in the attack on the Serbians near
Kniazhevatz, said an Athens message
received by the London Star.

Bulgarians Concentrate.
The Bulgarians had been concen-
trating for several days on their own
side of the international boundary
close to this point.
Kniazhevatz is about thirty miles
from Nish, Serbia's temporary capital,
which is on the railroad the allies
must traverse from Saloniki.

ian co-operation on the side of the en-
tente may be considered certain, says
a special dispatch from Rome. The
Roumanian government, however, will
choose its own time for taking the
field against the Austro-Germans.

THE SLEEPING CAR.

The sleeping car is one of the great est of American inventions. It enables the corporations to work us while we sleep.

The sleeping car is filled with beautiful plush seats. It has a more comfortable and pleasant atmosphere at night by being turned into a berth. There are ordinarily twenty berths and each berth will hold one and three-fifths persons and a peck of cinders. The berths are divided into upper and lower berths respectively. The lower berths were much more popular because of their proximity to the floor until the Interstate Commerce Commission lowered the rates on the uppers, after which it was discovered that the long, hard climb to the upper berth is very beneficial and assists in producing sleep.

To utilize a sleeping car you must pay about \$2 a night. Seventy-five cents of this is for the use of the car, the blankets and the pillows, and the rest is for the use of the beautiful wood carving and inlaying with which the car is decorated. If you have rented a lower berth you will find on the inside a small hammock large enough to hold a No. 4 shoe on an A last. Into

this you may place your clothes, your overcoat, your hat and your valise, reserving your pocket handkerchief for additional bed covering. If you rent an upper berth you must ascend by means of a ladder. Climbing to the top of this you take hold of the curtain rail with one hand and the outer ring of the berth chain next to the wall. You then retreat gradually into the berth sideways, after which the porter takes away your shoes in order to have evidence against you in the morning when he calls for his tip.

Rules of etiquette require passengers to dress in the berths of a sleeping car instead of in the aisles. As a result of this, American contortionists now lead the world. Women often travel in sleeping cars but the company doesn't encourage the practice. It has made the women's toilet so small that only one woman can occupy it at a time, and if two women are in a car one woman has to get up at 3 o'clock in order to give both a chance to dress before breakfast.

Sleeping cars are now so numerous that the company finds great difficulty in finding names for them. It has exhausted the names of countries, cities and operas, but if it will now start in on the names which passengers have called sleeping cars, it will be amply provided for all time to come.

Submarines Scouring Seas Enter Heligoland Bay, and Strike Hamburg; American Ship—Submersibles Active Elsewhere in Baltic—Coal and Iron Carriers Go Down.

London, Oct. 13.—British submarines are playing in the vicinity of Heligoland Bay, striking at German shipping. English under-sea boats torpedoed and sank the Hamburg-American line steamship Nicomedia, of 4,391 tons, south of the Island of Oeland, in the North Frisian group off the southwest Danish coast. Thirty-three of the crew were saved.

Sinks Collier.

A dispatch from Copenhagen says that British submarines off Kalman sank a German collier and also bombarded the German ore steamship Germania, which was beached. Crews of both ships were saved.

Sink Three in Baltic.

According to the Copenhagen Politiken, three German steamships were torpedoed in the Baltic Monday.

The British steamship Hallzones, of 5,083 tons, belonging to the British and South American line, has been sunk. Whether by a submarine or by a mine is not stated in the dispatch reporting the disaster.

MRS. HAMLIN AGAIN ACCUSED

Accused on Murder Charge, Is Held for Forgery.

Lexington, Ky., Oct. 13.—Mrs. Mammie Hamlin will have to face a charge of forging the will of Mrs. Polly Davis in Breathitt county. Mrs. Hamlin, widow of Burt Hamlin, son of a former attorney general of Illinois, was charged with poisoning Mrs. Davis to get her \$50,000 estate. Two weeks ago Mrs. Davis was proved not to have been poisoned.

The indictment against Mrs. Hamlin for murder was dismissed, but the court held her under \$1,000 bonds for alleged forgery of the will she produced before the county court. Mrs. Hamlin could not give bond, and was sent back to jail to await trial.

Samuel Wallin was here Tuesday on business from East Grove.

PRINCE ALBERT

the national joy smoke

is such good tobacco you feel like you could just eat the smoke!

Yes, sir, P. A. puts a razor edge on your smoke-appetite-division that's nobby enough to be photographed!

The toppy red bag, 5c

For you can put your little old blue-pencil O. K. right here that Prince Albert is a regular double-header for a single admission—as joy's to your tongue and taste one way as the other!

Will the "rollers" kindly step forward for a spell and get some of this listen into their systems? Because Prince Albert certain and sure jams more joy into a makin's paper than ever before was figured up on two hands!

In the plain language of the hills, you can't any more resist such makin's tobacco than a bullfrog can pass up a piece of red flannel! Because P. A. hands to you everything any cigarette roller ever dreamed-out—rare flavor, and aroma, and mildness, and body; absolutely the best bet—the best smoke

you or any other man ever did roll and put the fire to! Men, we tell you to wise up.

P. A. is crimp cut and stays put—which means rolling P. A. is as easy as falling off a log. And it's good to remember P. A. is put up in the toppy red bag especially for you "rollers." Sells for the price of a jitney ride, 5c.

Now, will the "pipers" kindly open both ears?

Here's tobacco that has made it possible for three men to smoke pipes where one smoked before!

Any way you hook it up, Prince Albert is tobacco insurance! Yes, sir, it guarantees your future as well as your present smokes! And just makes your tongue so jimmy pipe joy's that your smoke appetite grows whopping big. You men who "dassn't," we say you go to P. A., natural-like! Because there isn't a bite in a barrel of this national joy smoke.

Unlimber your old jimmy pipe! Dig it out of the dark corner, jam it brimful of P. A. And make fire with a match! Me-o-my!

You get acquainted with Prince Albert in the toppy red bag, 5c; or tidy red tin, 10c, but for the double-back-action-joy, you buy a crystal-glass pound humidor. And then you're set! You see, it has the sponge-moistener top and keeps P. A. at the highest top-notch point of perfection. Prince Albert is also sold in pound and half-pound tin humidors.

The tidy red tin, 10c

Clothing-Corridor Wedding

Among the beautiful autumn weddings none was more charming than that of Cecile, the daughter of Mr. and Mrs. Nathan Cortright, to Roland Cortright of Polo. The wedding of Miss Cortright and Mr. Cortright occurred today at the home of the bride's parents, at 215 E. Fellows street. Dr. F. D. Stone of the Methodist church read the service in the presence of the members of the two families and a few friends. The ceremony occurred in the living room which was decorated in autumn leaves. The red, green and gold of the oak and brilliant crimson of the sumac were blended in a ceremony bower, and sunset roses were arranged in white baskets, tied with golden tulle, at each side, adding another touch of brightness. Miss Belle Clothier, of Chicago, a sister of the groom, played a number of selections on the piano, preceding the ceremony. They included: "Love Song," Bohm; "Melody in F," Rubinstein; and "To a Wild Rose," by McDowell. The wedding march from Lohengrin was played as the bride couple took their places beneath the bower, a 1 softly, during the ceremony, Miss Clothier played Schubert's beautiful serenade. The snowy whiteness of the bride's gown, crepe de mouton and georgette with shadow lace, girdled with white satin, was unrelieved by touch of color. Bride's roses and lilies of the valley tied with satin ribbons in white formed the beautiful shower bouquet carried. The expressive ring service was used. In the dining room, where the wedding luncheon of four courses was served by Mrs. Clyde Cortright of Dixon and Miss Florence Wright of Glenn Ellyn, the latter a friend of the bride, the autumn leaves and roses were again used. Baskets of the sunset and white roses, the handles caught with the golden tulle, formed the centerpiece of the tables while smaller Japanese baskets with knots of the golden tulle on the handles formed the nut receptacles. In the library bittersweet berries and oak leaves formed the most effective decoration over the fire place and elsewhere in the room.

CHAMP CLARK.

Everybody in Washington is laughing at the flag which Champ Clark, speaker of the House, gave President Wilson and his fellow "dilettante" statesmen in a magazine article on the subject of the Monroe doctrine and in which he reproves the milk and water brand of statesmen now in the ascendant at Washington. His article is as follows:

Certain dilettante statesmen, writers and orators—more philanthropic than patriotic—from time to time vociferate with great positiveness that the Monroe doctrine is obsolete, dead and should be abandoned. According to these prophets of a New Evangel the Monroe doctrine was good enough for such old fogies as Jefferson, Monroe, Adams, Lincoln and Cleveland, and was all right for the stage coach period of the republic, but is entirely too slow and narrow for strictly up-to-date folks in the age of electricity and flying machines.

On the contrary, the Monroe doctrine is the only proposition the American people ever agreed on. About the tariff, finances, internal improvements and everything else they differ, about several they differ violently and in an unseemly manner—but about the Monroe doctrine all real lovers of our country of whatever persuasion, religious or political, agree. They rightly consider it far and away the most important contribution to the code of international law and they regard it as the political life preserver of the western world, which it is. Consequently they are justly proud of it and will defend and uphold it under all circumstances and at any cost.

It enabled the Central and South American republics to maintain their independence. Under it Secretary Seward ran Louis Napoleon, emperor of the French, out of Mexico at a time when he was the most powerful monarch on the earth, when his arms glittered from China to Peru. Under it Cleveland shook his fist in the face of the British Lion and forbade him to lay his paw on little Venezuela. We had no navy then worth mentioning but Johnnie Bull let us have our way. These are two of the proudest chapters in our history—chapters dear to the American heart.

Abandon the Monroe doctrine? By no manner of means. Obsolete? It will be maintained in full force and effect. It will grow with our growth and remain forever a blessing to mankind from Vancouver to the Straits of Magellan. This is a plain, unvarnished statement of the sentiment of one hundred millions of American citizens.

A CITY SEALER FOR DIXON.

The Telegraph feels that it has won something of considerable value for the citizens of Dixon in the recently passed ordinance providing for a city sealer and inspector of weights and measures. This newspaper made the original suggestion for such an office and we have repeatedly urged this action in our editorial columns. The Telegraph congratulates the city commissioners upon their action. We feel sure that the appointee of this position will be a man who will care for the duties of his office with diligence and with the interest of the people at heart. If the citizens will act in conjunction with the officer when he is appointed much good can be done. The city sealer should be always available and every citizen who has reason to believe he is not getting the weight or measure he pays for should immediately take his case to the officer. If you think your quart of milk, pound of butter or meat or peck of potatoes is short, you will now have recourse. We do not believe that the practice of giving short weight is particularly prevalent in Dixon but it is possible that there are retailers who are unscrupulous enough to cheat. It is also possible that short weights are given out at times owing to faulty scales or measures, but through no fault or dishonesty of the merchant. In that case the merchant will be glad to have you discover his error.

No honest dealer will object to this new ordinance. The other kind of dealer, of whom we hope and trust there are few in Dixon, will probably keep his objections to himself—if he has good judgment.

A BLOW FOR CHICAGO.

Chicago is greatly shocked and pained to learn that she is in the state of Illinois and is in fact a part of said state and therefore must, unfortunately, obey the laws of said state. Chicago will want that constitutional convention more than ever now.

Abe Martin says that "so far, nothin' has been righted in th' Eastland Disaster but th' boat," and he adds, in his loose jointed way, that "outa all th' things in this life I worry about, some folks select th' Monroe Doctrine."

Dixon township is patiently waiting for the supreme court of the state to settle the argument about the Tice road law. A favorable decision is hoped for so that six or seven miles of brick pavement can be put in.

When all the other war stars have had their day, General Exhaustion will probably step in and bring victory—for the wives and kiddies at home.

Popular Dixon Pastor Who Gets Well Merited Promotion To Big Church

REV. F. D. STONE.

"Fred D. Stone, pastor of the First Methodist Church, Elgin, Ill.," is the way this gentleman should be addressed after this week. Mr. Stone has been promoted to one of the biggest churches and finest charges in the Rock River Conference and his appointment to the Elgin church is a certain proof that the Dixon man is recognized as one of the most able ministers in the conference. The Elgin church to which he has been appointed has a thousand members in its congregation and the pastor's salary is \$3,000 a year. The promotion is a big one and was too great for Mr. Stone to refuse, although he was very backward about leaving Dixon and regrets that he will have to leave the city where he has spent several very pleasant years. Mr. Stone came to Dixon eight years ago from Oregon. His administration of the affairs of the First Methodist church of Dixon has surely been highly satisfactory and he has set a standard that will be hard for his successor to equal. The people of Mr. Stone's parish and the people of Dixon in general are loath to have him transferred and are very sorry indeed that he could not have been left in this city. They rejoice, however, in his splendid merited promotion.

Mr. Stone is a young man still, and he has great work before him. He started in the ministry by taking the Methodist church at Erie, in Whiteside county, then the smallest Methodist church in the Dixon district. Later he went to Mendota, was afterward promoted to Oregon and from Oregon was sent to Dixon. He started in the smallest church in the district and now leaves the largest church in the district. All of his years in the work have been spent in the Dixon district until now.

Rev. Stone leaves the church at Dixon in splendid condition for his successor, Rev. E. C. Lumsden. He has taken 450 persons in the church since his coming here eight years ago. The membership of the church, the Sunday school, the financial condition of the institution, are all of the best.

DIXON WILL LIKE REV. LUMSDEN.

E. C. Lumsden, pastor of the Methodist church at Harvard, Ill., comes to Dixon with the highest of recommendations from the departing pastor, Mr. Stone, and from other Dixon people who have lived in his parish or who know of him. The people of his congregation at Harvard are putting up a very strenuous battle to retain their minister and it is only the fact that the Dixon charge is very desirable that has induced Rev. Lumsden to accept it.

Mr. Lumsden is a man of about forty and is married. He spent several years as pastor of the First church of Freeport, Ill., and for the past four years has been at Harvard. Mr. Lumsden enjoys the reputation of being a very fine preacher and he is especially popular in the pulpit. He has been invited to take several of the prominent Chicago churches, but has refused. The Methodists in Dixon feel that they are fortunate in securing Rev. Lumsden's services.

Rev. Lumsden will preach his first Dixon sermon Sunday and will move to this city soon. Rev. Stone preaches in Elgin Sunday and will move there next week.

IT BOOSTS VEGETATION.

Aluminum Plays Vital Part in Growth of Shrubbery.

Recent experiments have shown that aluminum and manganese play an important part in the growth of vegetation. Prof. Stoklasa of Prague concludes that these elements possess a special function in the process of assimilation, and his experiments have shown that it is the leaves which contain the greatest quantities of them.

Gabriel Bertrand has shown that vegetable production can be increased by adding manganese to the nutrition. All vegetables that contain a certain quantity of manganese always contain aluminum.—World's Advance.

EDISON MAY ATTEND THE PANAMA PACIFIC EXPOSITION SOON

Depends on Progress at His Nine New
Chemical Plants in Aid of
American Industries.

John E. Moyer, 84 Galena avenue, who is making elaborate plans for the celebration of Edison Week, October 13-23, has just received advices from William Maxwell, second vice president of Thomas A. Edison, Inc., that it is as yet impossible to state definitely whether Mr. Edison will be able to visit San Francisco during the celebration of Edison Week at the Panama-Pacific Exposition.

Great pressure has been brought to bear from all parts of the country to induce him to be present at the Edison Day ceremonies at the Panama-Pacific Exposition on October 21. A medal is to be presented to the great inventor and the exposition officials also plan to have him plant a tree, to be known to future generations as "Edison's Tree."

Mr. Edison, who, during the present year has received the honorary degree of doctor of philosophy from Princeton University and medals from the Civic Forum and Franklin Institute, but little taste for such events, and until the Wizard is actually enroute to San Francisco his associates cannot be certain that he will be on hand for the Edison Day ceremonies.

He is at present deeply engrossed in the manufacture of chemicals. Already he is producing a superlative quality of carboric acid in large quantities. In his nine new chemical plants he is also manufacturing various other chemicals needed by the textile, dyeing and rubber industries. "Just let me alone here at the laboratory and I can do more good here than anywhere else," is the rejoinder to the invitations urged upon him, but nevertheless he has promised to go to San Francisco if he can possibly get away.

Regardless of whether Mr. Edison can be at San Francisco on Edison Day, the exposition officials will conduct a fitting celebration. Prominent men will lecture on Edison's inventions. In recognition of the fact that the Diamond Disc, his new instrument for the re-creation of sound, is Edison's favorite invention, particular prominence will be given to this new and glorified type of phonograph. Miss Christine Miller, the celebrated contralto and a great admirer of Mr. Edison, will journey to San Francisco in order that her own voice may be heard in comparison with Edison's Laboratory re-creation of it so that scientists and musicians may judge whether or not Mr. Edison has in fact realized his ambition to re-create music so perfectly that it cannot be distinguished from the original. Mr. Edison is arranging to give several demonstrations of this new Edison invention in Dixon during Edison Week.

AN ORDINANCE.

AN ORDINANCE creating the office of City Sealer of weights and measures, and defining the duties and providing for the fees thereof.

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF DIXON, IN THE COUNTY OF LEE AND STATE OF ILLINOIS:

Section 1. There is hereby created the office of City Sealer of weights and measures, who shall be appointed by the Mayor by and with the advice and consent of the Council at the same time and in the same manner as other city officials are appointed, whose appointment is not otherwise provided for by law, and who shall be and hereby is assigned to the department of Public Health & Safety and shall hold office from the date of his appointment until the end of the fiscal year for which such appointment is made, and until his successor is appointed and qualified. Provided, however, that the first appointment under this ordinance may be made at any time after thirty (30) days have elapsed from the passage and publication of this ordinance as required by law, for the purpose of providing a City Sealer for the present fiscal year.

Section 2. Said City Sealer shall take and subscribe the oath required by law of city officers, and shall give bond in the penal sum of One Thousand Dollars, with sureties to be approved by the Council, conditioned for the faithful discharge of the duties of his office.

Section 3. The standard adopted by the state of Illinois shall be the test by which all weights and measures shall be compared and determined, and the sealer of weights and measures shall, at the expense of said city, procure correct and approved standards of weights and measures with their necessary subdivisions, together with the proper beams and scales for the purpose of testing by said standards and proving the weights and measures in use in said city, together with any other apparatus necessary for the proper performance of the duties imposed upon the City Sealer by the ordinances of said city.

Section 4. It shall be the duty of said City Sealer at least once in every six months, to examine and test the accuracy of all weights, measures, scales or other instrument or thing used by any person for weighing or measuring any articles for sale in said city, to stamp with a suitable seal all weights, measures, scales or other instrument or thing so tested which he may find correct, and deliver to the owner thereof a certificate of their accuracy, to condemn all weights, measures, scales or other weighing or measuring instrument or thing which he may find incorrect on such inspection, and to cause the owner thereof to have them immediately corrected and made conformable to said standard.

It shall also be the duty of the City Sealer, at any time he may deem proper, to require the person in charge of a load or any part of a load of coal, wood, coke or other fuel, hay, oats, barley, wheat, rye, rice, corn, potatoes, apples, or any other kind of vegetables, fruits, etc., found within the limits of the City of Dixon to be delivered to the purchaser or purchasers thereof within the corporate limits of said City to exhibit for his inspection the weighing slip or measure showing the weight of his load or part of load as the case may be, (if being sold by weight) and to require such person to present his load or part of load, as the case may be at the most convenient or nearest scale within the limits of said City and there cause the same to be weighed and ascertain the correct or incorrectness of the weights produced by the person in charge thereof.

And it shall also be the further duty of said City Sealer, at any time he may deem proper, to enter any store, mercantile house or place of business in said city where goods, wares and merchandise are sold by weight, and to require the owner, manager or person in charge of said place to produce to be weighed by said City Sealer, any or all such packages or goods in bulk that have been heretofore weighed and put up to be sold without being weighed in the presence of the person purchasing the same.

Any person, firm or corporation, that shall refuse to exhibit to said City Sealer any weights, measures, scales or other instruments used for weighing and measuring as aforesaid for the purpose of examination or inspection as provided in this ordinance, or who shall refuse him access to the same in any place where the same may be, or who shall refuse to present any load or part of load of any goods, wares or merchandise sold by weight at the most convenient or nearest scale within the limits of said City when required by said City Sealer, as herein above provided or who shall refuse to produce any such packages or goods in bulk so prepared and weighed in advance of the selling

of the same as in this ordinance provided, or who shall otherwise obstruct him in the performance of his duties hereunder, shall, upon conviction be fined not less than Five (\$5.00) Dollars nor more than Two Hundred (\$200.00) Dollars for each offense.

Section 5. It shall be the duty of said City Sealer to make and keep in a record book furnished by the Council a regular register of all the weights, measures, scales or other instruments aforesaid inspected and tested by him, in which he shall state the names of the owner or owners of the same, and whether or not they were found conforming to the standards aforesaid, and the date of the certificate, if any, issued thereon.

Section 6. Every person, firm or corporation using, between the dates of said semi-annual inspection, any weights, measures, scales or other instrument or thing for measuring or weighing articles kept for sale, which may not have been examined, as aforesaid, shall notify said City Sealer thereof, within ten days after beginning the use of the same, and it shall thereupon become the duty of said City Sealer forthwith to inspect the same as provided in this ordinance.

Any person violating the provisions of this section shall, upon conviction thereof, be fined not less than five dollars nor more than two hundred dollars for each offense, and each day's delay in so notifying said City Sealer after the expiration of said ten days shall constitute a separate offense.

Section 7. Whoever shall directly or indirectly resist, obstruct or otherwise hinder, delay or interfere with said City Sealer in the legal discharge of his duties, shall upon conviction in cases where no other penalty is provided for by ordinance of said city, be fined not less than five dollars nor more than two hundred dollars for each offense.

Section 8. The said City Sealer shall receive as his compensation, and shall be allowed to collect and receive from owners of articles and instruments tested by him, the following fees:

For platform scales of 5000 pounds capacity or more, including weights, \$2.00.

For scales of from 500 to 1000 pounds capacity, including weights, 75c.

For scales of less denominations, including weights, 25c.

For testing measures of all sizes, 25c each.

Section 9. Said City Sealer shall devote to the duties of said office whatever time may be necessary to the proper discharge thereof, under the laws of the State of Illinois and the ordinances of said city; he shall be provided with a headquarters in the City Hall in said City, and attend to the same from time to time as may be necessary in the proper discharge of his duties.

Section 10. Any person appointed to the office of City Sealer, in the manner hereinabove provided, may be removed from such office at any time after his appointment to the same upon a majority vote of the Council of said City of Dixon.

Section 11. All ordinances and parts of ordinances in conflict with the provisions of this ordinance are hereby repealed, and this ordinance shall take effect and be in force from and after its passage, approval and publication, as provided by law.

WETS TAKE UP FIGHT ON SUFFRAGE AGAIN

Hard to See Where They Have Chance in Court.

Springfield, Ill., Oct. 13.—The validity of the woman's suffrage law of Illinois is again before the state supreme court.

Irving Solomon, representing Alfred Austrian, Benjamin Alschuler and other attorneys for the liquor interests, made a motion in the supreme court for leave to file a brief in the case of Dean Franklin vs. Jessie Westfall and Albert Fuhr, known as the "Macon case."

The court did not indicate what it will do with the motion. The brief which is submitted to the court does not raise any new objections to the validity of the suffrage act, but contends that the court erred in both the Scown case and the prior case, on which the Scown decision was based. In the first case, the court decided that the legislature had the power to grant women the right to vote for school trustees.

The court personnel stands as it did when it approved the suffrage act, with the exception that Justice Vickers, who voted for the approval, has been succeeded by Justice Duncan, whose sympathies have been considered all along with the drys and the women.

She starts to a nearby settlement to procure the services of a doctor and meets young Ralph Cowdray, who longed for adventure and romance, has settled in Fort Edward. The doctor, demanding payment in advance, is surprised when Nahnya displays a large bag of gold. Attracted by the gold and the good looks of the girl he accompanies her.

After the doctor's professional duties are ended, during a morning stroll he stumbles across the entrance

to a sealed valley.

Nahnya discovers Dr. Cowdray in her secret cavern. He proposes to her but she rejects him, fearing the usual unhappy union of whites and red. Dr. Cowdray later returns to Sealed Valley, followed by two unscrupulous scoundrels named Stack and Mixer who suspect that he has struck gold.

While going through the Rapids, Cowdray loses his outfit, suffers painful injuries and wanders many days through the boundless wastes of forest without food or shelter, and was at the point of death when Miss Kitty Shelto, the pretty blonde daughter of a gold miner, rescues him.

5 Women Avoid Operations

For years we have been stating in the newspapers of the country that a great many women have escaped serious operations by taking Lydia E. Pinkham's Vegetable Compound, and it is true.

We are permitted to publish in this announcement extracts from the letters of five women. All have been recently received unsolicited. Could any evidence be more convincing?

1. HODGSON, ME.—"I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached and I was so nervous I could not sleep, and I thought I never would be any better until I submitted to an operation, but I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman."—Mrs. HAYWARD SOWERS, Hodgson, Me.

2. SHELBYVILLE, KY.—"I suffered from a severe female trouble. My right side hurt me badly—it was finally decided that I must be operated upon. When my husband learned this he got a bottle of Lydia E. Pinkham's Vegetable Compound for me, and after taking it a few days I got better and continued to improve until I am now well."—Mrs. MOLLIE SMITH, R.F.D., Shelbyville, Ky.

3. HANOVER, PA.—"The doctor advised a severe operation, but my husband got me Lydia E. Pinkham's Vegetable Compound and I experienced great relief in a short time. Now I feel like a new person and can do a hard day's work and not mind it."—Mrs. ADA WILT, 303 Walnut St., Hanover, Pa.

4. DECATUR, ILL.—"I was sick in bed and three of the best physicians said I would have to be taken to the hospital for an operation as I had something growing in my left side. I refused to submit to the operation and took Lydia E. Pinkham's Vegetable Compound—and it worked a miracle in my case, and I tell other women what it has done for me."—Mrs. LAURA A. GRISWOLD, 2437 East William Street, Decatur, Ill.

5. CLEVELAND, OHIO.—"I was very irregular and for several years my side pained me so that I expected to have to undergo an operation. Doctors said they knew of nothing that would help me. I took Lydia E. Pinkham's Vegetable Compound and I became regular and free from pain. I am thankful for such a good medicine and will always give it the highest praise."—Mrs. C. H. GRIFFITH, 1508 Constant St., Cleveland, O.

FRENCH GAIN IN
HEAVY FIGHTING

Violent Cannonading Continues
Along Western Front.

RUSSIANS REPORT BIG GAINS

Claim Teuton Line in Galicia Has Been Pierced and Many Prisoners Taken—Political Move Seen to Impress Roumania—German Paper Admits Heavy Loss in France.

London, Oct. 13.—The terrific artillery duels that have characterized the fighting on the western front for several weeks were more intense than usual. German guns bombarded the trenches they lost northeast of Souchez, while south of the Somme and from the Aisne to the Novron plateau there was violent cannonading by both sides.

Soldiers again have been shelled by the Teutons, the French artillery directing a fire of repression against German trenches and batteries in Champagne.

French Claim Progress.
The French continue to make progress toward the ravine of La Goutte, says the official communique from Paris. German attacks in Tonnaine and in the Vosges have been repulsed.

Teuton Losses Heavy.
An Amsterdam dispatch says Berlin admits the German losses have been heavy. The dispatch estimates that within a brief period the French have fired more than three million shells.

Berlin, however, declares French attacks generally were repelled.

Russ Pierce Teuton Line.
Petrograd, Oct. 13.—Russia forces have pierced the Austro-German lines on the Stripa River. They have already taken prisoner more than 2,000 men and sixty officers and have captured four guns and ten rapid fireers. The Russian advance is being pushed vigorously.

This victory for the Russians was won in eastern Galicia, where the troops of Emperor Nicholas started a formidable offensive coincident with the opening of the Teutonic campaign against Serbia. The attack is being made north of the Roumanian border, and may have been undertaken with a view to the political effect on the Balkan situation. The Stripa River is a branch of the Dniester, extending to the north, to the west of Tarnopol.

The official statement claims successes at Divinsk, the German being driven from several positions.

German Take Iloukust.

Berlin, Oct. 13.—The German capture of Iloukust, in the Divinsk region, from the Russians was officially announced.

MORE ARMENIANS ARE SLAIN

Ambassador Morgenthau Says Over Half Population Has Been Killed.

Washington, Oct. 13.—Armenian massacres in Asiatic Turkey have been renewed with vigor since Bulgaria's entrance into the war as Turkey's ally. This information reached the state department from Ambassador Morgenthau who stated that the majority of the Armenians in Asiatic Turkey had been killed.

Although representations were made by this government some time ago, warning Turkey that further atrocities against the Armenians would alienate the sympathies of the American people, no answer has been received.

ALLEGED SLAVER IS CLEARED

Medical Registration Board Says Competent Witnesses Didn't Convict.

Indianapolis, Ind., Oct. 13.—Dr. Louis Weinberg of Ligonier, Ind., recently found guilty of violating the Mann white slave law by a federal court in Chicago, but recommended to mercy, was cleared by the Indiana State Board of Medical Registration of charges of gross immorality. The board held that the charges against Dr. Weinberg had not been substantiated by competent witnesses.

Find \$10,000 in Can.

Decatur, Ill., Oct. 13.—Ten thousand dollars hidden in tin cans was found in the house of Mrs. Jean Deslarge, near Assumption, twenty miles south of here, when a search was made by Frank Cakes, conservator for the woman and her two daughters. They have lived in seclusion for thirty years.

Clear Rector Who Slew.

New Orleans, Oct. 13.—The grand jury exonerated the Rev. Byron Holley, rector of St. George's Episcopal church, who shot and killed Lansing G. Pearsall in the rectory. The minister told the police he mistook the young man for a burglar.

Earthquake in Italy.

Rome, Oct. 13.—An earthquake shock was felt at midnight in Reggio nell' Emilia. Some damage has been reported. Reggio nell' Emilia is the capital of the province of the same name. The population is 58,490.

ENDORSED AT HOME

SUCH PROOF AS THIS SHOULD
CONVINCE ANY DIXON
CITIZEN.

The public endorsement of a local citizen is the best proof that can be produced. None better, none stronger can be had. When a man comes forward and testifies to his fellow citizens, addresses his friends and neighbors, you may be sure he is thoroughly convinced or her would not do so. Telling one's experience when it is for the public good is an act of kindness that should be appreciated. The following statement given by a resident of Dixon adds one more to the many cases of Home Endorsement which are being published about Doan's Kidney Pills. Read it.

D. G. Miller, Prop. furniture store, 113 Peoria avenue, Dixon, says: "I am bothered every now and then by disordered kidneys. My back gets sore and I feel poorly. I also have dizzy spells. When one of these attacks come on, I use Doan's Kidney Pills and they promptly relieve the trouble. Another of my family has also used Doan's Kidney Pills with good results."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Miller had. Foster-Milburn Co., Props., Buffalo, N. Y.

A double spendthrift is one who
wastes both his time and his money.

Occasionally the preacher's aim is
inaccurate and his sermon hits you.

The average woman likes to talk
about her neighbors almost as well
as the average man likes to talk about
himself.

Many a man who boasts that he
isn't a hypocrite is so disagreeable
that his acquaintances may wish he
was.

It's easy to gauge a man's intelli-
gence. Draw him into a discussion,
and if he agrees with you he is sen-
sible.

Many a man gets a reputation for
being good-natured because he is too
lazy to take his own part.

Probably once in about 4,000 years
a man who is licked in a fair fight
has no excuse to offer.

Sometimes a man is considered ec-
centric because he attends strictly to
his own business.

Earthly angels are all right, but
there isn't much excitement in being
married to one.

For every fault we find in our neigh-
bor we overlook a dozen or more in
ourselves.

BISHOP HOMER CLYDE STUNTZ

Homer Clyde Stuntz, Methodist min-
ister and missionary, was made a
bishop by the General Conference of
the Methodist Church in 1912. During
the present quadrennium, 1912-1916,
his Episcopal residence is Buenos
Aires, Argentina, and he has super-
vision of all the Methodist work on
the continent of South America.
Bishop Stuntz was a missionary in
India for nine years; superintendent
of Methodist missions in the Philip-
pines four years and a secretary of
the Methodist Board of Foreign Mis-
sions five years. From Observation
and experience he knows missionary
work and its results thoroughly. Hav-
ing recently returned from South
America is able to speak with author-
ity on conditions there.

The Convention in Chicago.

The great National Campaign of the
Laymen's Missionary Movement is to
open its first convention in Chicago
Oct. 14-17. The meetings are to be
held in Medinah Temple. The first
meeting will be Thursday evening,
Oct. 14, at 7:30. Friday there will
be three sessions, at 9:30 a. m., 2:30
and 7:30 p. m. The two Saturday
meetings will begin at 9:30 a. m. and
7:30 p. m. The last meeting of the
convention in Chicago will be held on
Sunday at 3:30 p. m.

As Chicago is the first city to have
the convention, it is hoped that Chi-
cago will be first in the list of cities
awakened by the call of the mission-
ary forces.

"Every Man in Every Church" is
the slogan that has been adopted by
the committees in charge, and they
have stated the purpose of the con-
vention thus, "To enlist the Church
to undertake her whole task."

Delegates will be admitted by badge
to all sessions. No collections are to
be taken, but to meet expenses a
registration fee of \$1 will be charged.
Registrations should be sent as early
as possible to H. B. Dickson, 19 S.
La Salle street, Chicago.

The Chicago Convention.

The Chicago Convention will include
men from the following counties in
Illinois: Cook, Lake, McHenry, Boone,
Winnebago, Stevenson, Ogle, Lee, De-
Kalb, Kane Du Page, Will, Kendall,
La Salle, Bureau, Putnam, Grundy,
Livingston, Iroquois, Kankakee. In
Indiana: Lake, Potter, La Porte, St.
Joseph, Elkhart, La Grange, Koscius-
ko, Marshall, Starke, Pulasky, Ful-
ton, Jasper.

It is expected this convention will
be the greatest convention ever held
in America, probably 7,000 to 10,000
men will register.

FRED B. SMITH

of the H. W. Johns-Manville Com-
pany, was for more than twenty
years at the head of the international
Religious Work Department of the
Young Men's Christian Association.
He is one of the most powerful speak-
ers to men of the present day. He
will bring impressive messages from
his recent tour around the world on
a religious mission. He was the great
organizer and prime mover of the
Men's Religious Forward Movement
that swept across the nation two or
three years ago.
